

**PLYMOUTH BADMINTON**

**The P & D Churches Badminton League (Founded 1930)**

**Beckly Cup Team Declaration Form**

**Introduction:**

Clubs are required to declare to the league the team that will be representing the club for each round of the Beckly Cup. Failure to declare the team will mean that the Handicap committee will base the handicap on the strongest players in the club.

The team will consist of three ladies and three men and they will play as mixed doubles pairings, and in strength order, throughout the fixture.

**Team Selection:**

Club Name:

Please complete your team selection for the  round of the Beckly Cup.

|                            | <b>Lady</b>          | <b>Man</b>           |
|----------------------------|----------------------|----------------------|
| <b>1<sup>st</sup> Pair</b> | <input type="text"/> | <input type="text"/> |
| <b>2<sup>nd</sup> Pair</b> | <input type="text"/> | <input type="text"/> |
| <b>3<sup>rd</sup> Pair</b> | <input type="text"/> | <input type="text"/> |

**Notes:**

- To enable the Handicap committee to be as accurate as possible, the information is required at least one week before the fixture date. In the absence of the information by this date the handicap will be based on the club's first medley team players.
- If the club plays an "unknown" player in the Beckly Cup, i.e. a player who has not played in the Plymouth and District Badminton League, the club needs to advise the league of their standard of play relative to a "known" player.
- If the team is altered at the last moment, the handicap committee will endeavour to adjust the handicap. Clubs are asked to enter the details of the team and to try and avoid any last-minute anomalies. The league has the option to re-handicap a fixture after the event if necessary.

**Club Notes on the Pairs:** (to assist the Handicap Committee)

|                |                      |
|----------------|----------------------|
| <b>Pair 1:</b> | <input type="text"/> |
| <b>Pair 2:</b> | <input type="text"/> |
| <b>Pair 3:</b> | <input type="text"/> |
